

# NEC Digital Signage/ Content Creation Solutions

*Simple, all-in-one bundles for your  
business' signage needs*

NEC's Digital Signage/Content Creation Solutions provide all of the necessary components for those in need of professional-grade digital sign in a comprehensive bundle. Available in sizes up to 65", each bundle includes an NEC V, P or X Series display, a single board computer to source motion graphics, a wall mount kit, Ultrablok surge suppressor, complimentary NEC content management software (CMS) and a voucher good for two hours toward NEC Content Creation Services. The built-in functionality of the expansion slot allows for clean, hidden PC integration while reducing the bill of materials needed for installation. NEC's Content Creation Services can help you break through the everyday clutter of messaging your audience encounters with high-quality, custom motion graphics that translate your business objectives into compelling calls-to-action that deliver results.

## Highlights

- **Bundled solution** with everything required for a digital signage deployment makes configuration and installation easy
- **Professional- and commercial-grade LCD panel and components** meet even the most formidable digital signage industry requirements
- **NEC Content Creation Services** add high-quality, results-driven motion graphics to your digital signage solution
- **Single board computer**, integrated within the display, simplifies digital content sourcing
- **LED edge lighting** significantly decreases depth and reduces power consumption (V and X Series only)
- **Wall mount kit**, compatible for both landscape and portrait orientations, puts the display on center stage
- **No-charge NEC CMS** is a SaaS web-based digital signage content management software and is fully hosted by NEC Display Solutions, so you don't have to worry about monthly payments
- **Ultrablok direct plug-in ISOBAR surge suppressor** features two outlets, an all-metal housing and 1410 joule rating

## NEC Content Creation Services

You've got the displays...now it's time to realize their true potential. Running a static image on your digital screen might be brighter than a printed poster, but motion graphics will turn countless more heads and lead to bigger results for your business. You'll work with our digital content development team and receive a custom video file, completing your digital signage solution. From simple imagery to complex animation and even video, NEC can turn your logos, product photos and messaging into compelling calls to action your audience can't ignore. No matter your timeframe, NEC can create digital content to fulfill your every wish.

## NEC CMS

Scalable from one display to multiple displays, NEC CMS is designed to be as simple to operate as Microsoft PowerPoint, using widgets and gadgets in an easy-to-use user-interface. Features include preconfigured templates, free Reuters business entertainment, news and sports feeds, free AccuWeather feeds, local zone message editing capability, full playlist capability, and pull technology for added security.
